ABOUT ME

Passionate Computer Science student with strong experience in Machine Learning, AI systems, and backend development, focused on building scalable real-world solutions. Proven ability to lead projects, optimize models, and rapidly learn new technologies through research and hands-on development.

EDUCATION

East West University 2022 – 2026
B.Sc. in Computer Science and Engineering (CSE) | ***CGPA: 3.68/4.00*** Dhaka, Bangladesh

PROJECTS

Pause & Verify – AI Misinformation Detection Chrome Extension | *JS, HuggingFace, Google Fact Check API*

- Real-time Facebook misinformation detector combining deepfake image analysis, dual-pass BART zero-shot classification, and a 200+ domain credibility database
- Integrates Google Fact Check Tools API for live claim verification against global sources | GitHub

Jobsly – Job Portal Web Application | *Django, Python, SQLite, Bootstrap, OAuth, SMTP*

- Role-based job portal with Google OAuth, dynamic search/filtering, CV uploads, and application tracking
- Implemented automated SMTP email notifications and a responsive Bootstrap UI for seamless user experience | GitHub

Lets Watch – Movie Recommendation System | *Python, FAISS, Vector Embeddings, Scikit-learn*

- Content-based recommender using high-dimensional vector embeddings and FAISS similarity search for fast retrieval
- Addressed cold start and over-specialization limitations through feature engineering and embedding regularization | GitHub

PUBLICATIONS

Optimized Ensemble Architecture Integrating LSTM, FFNN, and SVM for Binary Prediction Tasks 2025
IBDAP-2025 Conference 6 pages

- Achieved **99.5% accuracy** and **1.00 ROC-AUC** via Optuna tuning and stratified cross-validation; $p<0.01$ confirmed stability | *Sajid Ahmed, Md Al Imran*, Swabirah Iffat Binte Ameer* | DOI

HONOURS AND AWARDS

- **Dean's List Scholarship (Fall 2024)**: Awarded for maintaining 3.75+ CGPA across three consecutive semesters (35+ credits)
- **Merit Scholarship (Fall 2025)**: Awarded for achieving 3.90+ CGPA across three consecutive semesters (35+ credits)

ADDITIONAL COURSES & CERTIFICATIONS

Full Stack Development – OSTAD Completed
Backend (Python, Django, REST APIs) and frontend (React, JS, HTML/CSS) with MySQL | *Certificate*

VOLUNTEERING

National Robo Fest 2024 – Volunteer 2024
Supported event coordination and participant management at Bangladesh's largest robotics competition Dhaka, Bangladesh

SKILLS

Languages: Python, Java, C, HTML/CSS, PHP
Frameworks & Libraries: Django, React, Bootstrap, Scikit-learn, Pandas, NumPy, Hadoop, SPARK
Databases & Tools: MySQL, SQLite, FAISS, Git, GitHub, Jira, Trello, Figma
Machine Learning: Ensemble Methods, Feature Engineering, Hyperparameter Tuning, Model Evaluation
